

Ten Year Review

of the International Wind Power Industry

1995-2004

- Forecast for 2015
- Long Term Scenario to 2025

2000

2001

2002

2003

2004

47,912 MW

- Ten years progress in **global markets and manufacture**
- From wind turbines to power plants: grid co-ordination
- **Technology development**
- **Consolidation** in the industry

Contents

Tables	iii
Figures	iv
Abbreviations and technical units	v
1. Preface	vii
2. Introduction	1
3. Market development 1995-2004	3
3.1 Brief historical background up to 1995	3
3.2 Global development 1995 to 2004	5
3.3 Development by continent 1995-2004	6
3.3.1 Americas	7
3.3.2 Europe	8
3.3.3 Asia	9
3.3.4 Rest of the World	10
3.4 Development in Top Ten markets 1995-2004	11
3.5 Development in size of turbines – segmentation by size	14
3.5.1 Average size of turbines delivered to the market.....	15
3.5.2 Product segmentation by size of WTGs.....	16
3.6 Developments on the customer side	19
3.7 Wind power penetration in major markets	20
4. Developments on the supply side 1995-2004	23
4.1 Development up to 1995.....	23
4.2 Top Ten suppliers from 1995 to 2004.....	24
4.2.1 Top five suppliers by region 1995-2004.....	27
4.3 The Top Ten suppliers' development over 10 years.....	30
Suppliers from no. 6 to no. 10.....	32
5. Consolidation in the industry 1995 to 2004	35
5.1 Brief historical background up to 1995	35
5.2 Mergers and acquisitions from 1995 to 2004.....	37
5.3 Geographical distribution of the wind power industry	39
5.4 Likely future structure of the wind power industry.....	40
6. Special Topic 1: Development of Wind Turbine Technology	45
6.1 Larger turbines emerged from 1995 to 2004	45
6.2 Preferred WTG models delivered to the market 1995-2004	46
6.3 Conceptual changes	47
6.4 From "fixed pitch stall" to variable speed and "full pitch regulation"	51
6.5 Offshore application – trends in offshore adapted technology.....	54
6.6 Likely future designs concerning mechanical drive trains vs. "gear-less"	58
6.7 Grid compatibility - new requirements from utilities	60
7. Forecasting – an exercise in uncertainty	63
7.1 Evaluation of previous BTM-C forecasts 1995-2004	63
7.2 Other organisations making forecast on wind powers	65
7.3 Actual forecasts from other organisations	65
8. Special Topic 2: Wind power joins the mainstream	69
8.1 The transition from supplying wind turbines to delivering power stations	69
Power generation unit – the turbine	77
On shore power plant systems	77
Offshore power plant systems	77
On shore power plant systems	77
9. Long term development of Wind Power – two scenarios	79
9.1 Scenario 1: Business as Usual (Short term).....	79
9.2 Forecast to 2015.....	81
9.3 Scenario 2: Environment and Security of Supply focused Policy (Long term).....	89
9.4 Scenario to 2025.....	92
9.4.1 Quantifying Scenario 2 in a global electricity context.....	95
9.4.2 Impact of Scenario 2	98

Appendices	101
A: Data-sheets for major markets	101
B: List of 1989 WTG suppliers	123
C: References	124
References to Chapter 6: Special Topic 1 - Technological development	124
References to Chapter 8: Special Topic 2 - Wind power joins mainstream	125
Index	127

Tables

Table 3-1: World market growth rates 1990 to 1995	3
Table 3-2: World market development 1995 to 2004.....	5
Table 3-3: Capacity by year, growth rates and cumulative MW for Americas	8
Table 3-4: Capacity by year, growth rates and cumulative MW for Europe.....	9
Table 3-5: Capacity by year, growth rates and cumulative MW for Asia	10
Table 3-6: Capacity by year, growth rates and cumulative MW for Rest of the World	11
Table 3-7: Top Ten markets 1995-2004, ranked by cumulative installation	12
Table 3-8: The 10 largest markets by the end of 2004 (cumulative MW)	12
Table 3-9: Top Ten markets ranked in order of annual installation 1995 to 2004	13
Table 3-10: Annual new installation (MW) by country 1995 to 2004.	13
Table 3-11: Total annual and cumulative installation in the world 1995 to 2004	13
Table 3-12: Status for the Top Ten markets by end of the year 2004	14
Table 3-13: Average size of WTG (kW) installed each year from 1995 to 2004.....	15
Table 3-14: Average size of WTG by cumulative installation	16
Table 3-15: Segmentation of product sizes 1995 to 1999	17
Table 3-16: Distribution of total MW by size segment 1995 to 1999	18
Table 3-17: Segmentation of product sizes 2000 to 2004	18
Table 3-18: Distribution of total MW by size segment 2000 to 2004	19
Table 3-19: Penetration of electricity in major wind power markets	21
Table 3-20: Penetration of wind power in the world's electricity generation	22
Table 4-1: Top Ten positions in the market 1995 to 2004 (<i>ranked by annual supply</i>).....	24
Table 4-2: Annual market share – Top Ten suppliers 1995-2004	26
Table 4-3: Top Ten suppliers in Europe 1995-2004	27
Table 4-4: Top Five market shares in Europe 1995-2004	27
Table 4-5: Top Ten suppliers in the Americas 1995-2004.....	28
Table 4-6: Top Five suppliers' market shares in the Americas 1995-2004.....	28
Table 4-7: Top Ten suppliers in Asia 1995-2004.....	28
Table 4-8: Top Five suppliers' market shares in Asia 1995-2004.....	29
Table 4-9: Top Ten suppliers in "Rest of the World" 1995-2004.....	30
Table 4-10: Top Five suppliers' market shares in "Rest of the World" 1995-2004	30
Table 5-1: The twenty leading WTG suppliers in 1989.....	35
Table 5-2: Geographical distribution of Top Ten companies' manufacturing facilities.....	40
Table 5-3: Supplier groups in the international wind power industry	42
Table 6-1: Key figures in development of WTG sizes 1995 to 2004.....	45
Table 6-2: Top Ten turbine types delivered 1995 to 2004	47
Table 6-3: Top Five MW-Class turbine types 1995 to 2004	47
Table 6-4: Turbines in operational offshore wind farms by end of 2004.....	55
Table 6-5: Wind turbines chosen for projects ordered or under construction	56
Table 6-6: WTGs in the design/prototype phase to be commercialised in 2005-2007	56
Table 6-7: Potential turbine designs for future offshore wind farms	57
Table 7-1: Five year forecasts from BTM Consult ApS' World market updates	63
Table 7-2: Predicted cumulative installation five years ahead from BTM Consult ApS	64
Table 7-3: Previous projections from <i>World Energy Outlook</i> , WEO	66
Table 9-1: Global Forecast to 2015	84
Table 9-2: Scenario 2 - Global wind power development by region to 2025	94
Table 9-3: Penetration of wind power by 2005 - Scenario 2.....	99

Figures

Figure 3-1: Installed wind power until 1995	4
Figure 3-2: Installed Wind Power 1995 to 2004	5
Figure 3-3: Installed wind power distributed by continent 1995 to 2004	7
Figure 3-4: Growth in physical size of WTGs, 1980 to 2003.....	14
Figure 3-5: Average size of turbine delivered to the market – 1995 to 2004	16
Figure 3-6: Number of units by size 1995 to 1999	17
Figure 3-7: Number of units by size 2000 to 2004	19
Figure 3-8: Penetration of wind power electricity in leading countries	21
Figure 4-1: 10 years development in market shares for today's Top Five	32
Figure 4-2: 10 years development in market shares for today's Top 6-10 suppliers	33
Figure 5-1: Illustrates the industry's development over the period 1995 to 2004.....	38
Figure 5-2: The Top Ten's positions in terms of market share and spread (2004)	42
Figure 6-1: Development of turbine size over 25 years	45
Figure 6-2: Development in wind turbine size.....	48
