

Contents

Preface	3
Executive Summary	5
1. Introduction	6
1.1 Methodology.....	6
1.2 Limitations of the research.....	6
1.3 Evolution of the wind power supply chain.....	7
2. Global distribution of wind turbine manufacturing	9
2.1 Geographical distribution of wind turbine manufacturing.....	9
2.2 Overview of global wind turbine manufacturing capacity.....	12
2.3 MW Class wind turbines in the Top-15 suppliers.....	13
3. The Wind Power Industry Supply Chain	15
3.1 Introduction to the supply chain.....	15
3.2 Scope of the assessment.....	15
3.3 Current structure in the wind industry supply chain.....	16
4. Supply chain assessment of key components	19
4.1 Blades.....	19
4.2 Gearboxes.....	25
4.3 Electric Generators.....	35
4.4 Bearings.....	40
4.5 Power Converters.....	46
4.6 Transformers.....	51
4.7 Towers.....	53
4.8 Summary of components supply status.....	57
5. Supply chain assessment of key materials	58
5.1 Castings.....	58
5.2 Forgings.....	65
5.3 Reinforcement fibres.....	71
5.4 Resins.....	72
5.5 Summary of supply status for key materials.....	72
6. Offshore wind supply chain	74
6.1 Introduction.....	74
6.2 Offshore supply chain for key components and materials.....	74
6.2.1 Blades.....	74
6.2.2 Gearboxes.....	75
6.2.3 Electric generator.....	76
6.2.4 Bearings.....	76
6.2.5 Power converter.....	76
6.2.6 Power Transformer.....	77
6.2.7 Castings for offshore wind.....	77
6.2.8 Forgings for offshore wind.....	78
6.3 Growing market for offshore balance of plant supply.....	78
6.3.1 Foundations.....	78
6.3.2 Special contractors.....	79
6.3.3 Vessels for installation and construction offshore.....	79
7. Trends in wind power markets	80
7.1 Political issues.....	80
7.2 Industrial aspects.....	80
7.2.1 Strategic changes in sourcing patterns.....	80
7.2.2 Globalisation and consolidation in the wind industry.....	87
7.3 Trends in Wind Technology.....	89
7.3.1 Upscaling in general – logistics implied.....	89
7.3.2 The Trend of Direct Drive Technology.....	89
7.3.3 Trends of offshore wind technology.....	90
8. Conclusions	91
Appendix	95
Appendix 1: Global market status at end of 2008.....	95
Appendix 2: Global wind power market forecast up to 2013.....	96
Appendix 3: The status of wind turbine OEMs by end of 2008.....	98
Appendix 4: Identified global supply capacity of castings for wind turbine.....	100
Appendix 5: Identified global supply capacity of forged material for wind turbine.....	104
